Rules For the “Play In”

Rule #1: Participants can only register in the “Play In” once. Participants can play in one or all of those “Play In” dates and time slots, but would need to announce/register before round starts that this round is my “Play In” round that will count for the Match Play. Participants names will be listed on each date with a time, and a check box spot for registration.

Rule #2: Participants can only play on those dates and time slots to qualify in the “Play In” for the Match Play. The only exception, is if the course is considered before, during or after your round has been completed, that either the course will not let carts out or that the course is considered unplayable, due to weather and ultimately is closed. If either of those occurrences happen on the “play in” date(s), a new date(s) and time slot(s) will be created and all participants will have a due over for that date, and the original scores will become null and void. The scores will not count regardless of finishing the round.

Rule #3: All participants will need to play with other DEGC Member(s), regardless if those other members are registered to play in the Match Play, or played in an earlier “Play In” date. Please exchange scorecards, and list both opponent and scorer names on the scorecard.

Rule #4: Once your round is over and scorecards are calculated and signed by both the competitor and scorer, you will place the scorecard in the Match Play box located in the clubhouse next to the computer. If you or playing participant(s) have any discrepancies on either a score/rule, or anything else that would be considered serious enough that a ruling will need to be made. Please do not sign the card and write a note and we can discuss and hopefully make a ruling in a timely matter.
